OVERHEAD DOOR®

Odyssey™ 1000 with belt or chain drive

Garage door opener

7030/7030H

Odyssey™ 1000 with belt or chain drive

Garage door opener

7030 | 7030H

A quiet yet powerful performance with superior convenience

- Powerful yet quiet 3/4 HPc* DC motor operates most residential doors at a speed of up to 7.5§ inches per second
- DoorDetect™ Monitoring and Diagnostic Technology constantly monitors the door's performance
- Features CodeDodger® 2, a superior encryption system that identifies a code from billions of possible combinations
- Easy to install opener is lightweight, requires only four standardized bolts for assembly of rail to powerhead and has simplified menu-based programming

Standard features

DC Power
Quiet yet powerful 3/4 HPc* DC motor operates with minimal noise.

Quiet Operation
Belt drive provides smooth and quiet operation, perfect for room adjacent garages that demand minimal noise.

DoorDetect™ Monitoring and Diagnostic Technology
Delivers the power needed at every movement of the garage door and continuously monitors the operation of the door, stopping operation when significant changes occur. These features minimize noise, wear and tear on the door and improve overall safety.

Two-Bulb Lighting System
Two 100 Watt bulb lighting system provides added convenience and safety.

CodeDodger® 2 Access Security System
The system features advanced technology that prevents piracy of the radio signal that opens your door by selecting a new code from billions of combinations.

Auto Seek Frequency Range
System will automatically seek either the 315 or the 390 frequency produced by a remote, helping to ensure opener will respond regardless of nearby frequency interference.

Safe-T-Beam® System
When objects pass through the infrared beam, the door automatically stops closing, and then reverses. The system's self-diagnostic functions alert homeowners of misalignment or damage.

Automobile Convenience Features
Compatible with HomeLink® and Car2U® systems.

* 3/4 Horsepower Comparable (HPc) designates that this garage door opener meets Overhead Door's lifting force specification for 3/4 horsepower garage door openers.
§ +/- 0.5 inches per second. Speed will slow with one-piece doors.
